EDUCATION

2016 - 2020

BOGAZICI UNIVERSITY

SKILLS

- HTML
- CSS
- JavaScript (ES6+)
- TypeScript
- React
- Redux
- Git/ GitHub
- Node.js
- Firebase
- UI/UX Design
- Express
- Next.js

LANGUAGE

- Turkish
- English(C1)

Hello! I am Fırat Akkuş, graduate from Boğaziçi University. I am a Full Stack Developer specializing in frontend and mobile application development. My software development adventure, which started with simple websites three years ago, is now focused on modern technologies such as React and React Native.
I have full faith in teamwork and producing innovative solutions. I enjoy contributing to the developer community and aim to inspire others by sharing my experiences. I look forward to contributing to creative projects and exploring how we can collaborate to achieve great things together.

EXPERIENCE

08/2024 - 09/2025

- **Full-Stack Developer**

  Didiyos

  - I developed high-performance and scalable server-side applications using Node.js and Express framework. I increased the efficiency and reliability of systems by designing microservices that respond quickly to user demands.
  - I created and managed database solutions using PostgreSQL and MongoDB. I optimized complex data structures and maximized performance by enabling dynamic data integration between applications.
  - I have built backend systems that integrate modern frontend technologies (React, Vue.js) with RESTful APIs and GraphQL. I ensured fast and secure data flow to improve user experience.
  - Developed automated deployment processes using Jenkins, GitHub Actions, and other CI/CD tools. I accelerated the software release cycle by improving code quality and continuous integration processes.
  - I improved the user experince using libraries such as Bootstrap, Tailwind, Redux, Redux Toolkit and SCSS.
